MEMORANDUM

From: Information Technology/Information Management Office, FRCSE, Jacksonville (Code 7.2.0)
To: Contracting Officer, Fleet Logistics Center Jacksonville

Subj: **JUSTIFICATION FOR SOLE SOURCE ACQUISITION OF MAINTENANCE SUPPORT FOR DATAWATCH MODELER (FORMERLY MONARCH)**

Ref: (a) Procurement Request No. (s): N6588615RX5A278
(b) Federal Acquisition Regulation 6.302-1

1. **SOLE SOURCE:** This justification is provided to support contracting without full and open competition for subject requirement as authorized by 10 U.S.C. 2304(c) (1) in that the supplies of services are available from only one responsible source and no other type of supplies/services will satisfy the minimum needs of this agency. This determination is based on the following facts:

() Specifications/drawings (attached) contain **proprietary** or **restricted** use legends.

() This is a one-time buy making reverse engineering costs prohibitive.

(X) Others: **DATAWATCH** is the **only** source of supplies/services that can provide and that will meet the needs of the government. Market research was conducted and produced negative results.

(X) This is an **Information Technology** part/service that is **available only** from the original manufacturer/source or for which the source must be approved by the original equipment manufacturer. Award to any other source would jeopardize compatibility with existing systems and/or would result in unacceptable delays in fulfilling the requirement.

(X) **Additional comments:** The FRCSE is currently using DATAWATCH MONARCH PROFESSIONAL software. This software interacts with current applications within the NAVAIR community (data analysis, management reports, FIP requirements and corrects suspense items in DIFMS). MONARCH V11 is DADMS approved. Current contract is with OEM (DATAWATCH), N68836-14-P-0753 applies.
